

# Hot and Cold Climates

WHAT ARE THE DIFFERENCES BETWEEN HOT AND COLD PLACES AROUND THE WORLD?

## GEOGRAPHY

This half term, we will be identifying where in the world we would find hot and cold climates, and comparing the weather and wildlife we would find there. We will also be thinking about the locations of the continents and oceans.

## Science

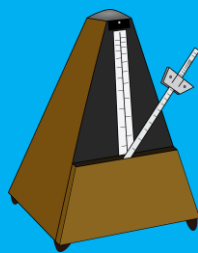

Our lessons will focus on healthy bodies, where we spend time thinking about how we can keep our bodies healthy. We will be naming and labelling various parts of the body too to develop our knowledge of anatomy.

## RE

RE this half term will focus on the Easter story, recalling the key events of the Last Supper and Good Friday. We will be thinking about the Christian beliefs linked to Easter, such as forgiveness, new life and the role of Jesus and his death.

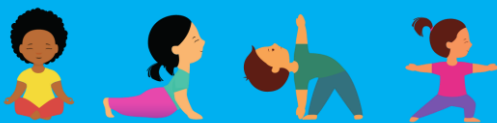

## PE

In Yoga, the children will begin to learn poses and techniques that will help them connect their mind and body. In invasion games, pupils will develop their understanding of attacking and defending and what being 'in possession' means.

## DT AND MUSIC

Our students will be enhancing their food preparation skills by looking at how we peel and slice different fruit and vegetables. In Music, we will be looking at tempo and dynamics, looking at how the speed of the music can change how we feel.

## RSE

Year 1 will be thinking about the ways in which we can keep our bodies clean and healthy. Year 2 will explore how we keep our bodies private and build a positive body image as we grow.
