

Switzerland

CAN YOU COMPARE THE CLIMATE AND LANDMARKS OF SWITZERLAND TO THOSE OF THE UK?

GEOGRAPHY

This half term, we will be completing a case study of another European country - Switzerland. We will be finding out about the culture and climate of the country, as well as comparing its mountainous regions.

Science

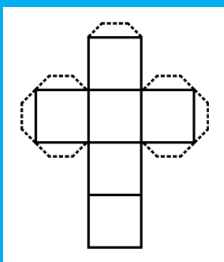

This half term we will be learning about forces and their various uses. We will identify materials that are magnetic and how we can use these for different purposes. Children will also be looking for evidence of magnets being used in daily life.

RE

RE this half term will revisit the Easter story and the impact that the death of Jesus has on Christians at this time of year. We will focus on the period of Lent and the reasons why some people choose to 'give-up' certain items.

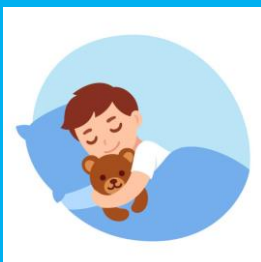

PE

Children will revisit Yoga, exploring balance and core strength as a vital part of both physical and mental health. In Hockey, students will learn how to strike the ball safely, as well as dribble and change direction using the correct face of the stick.

DT AND MUSIC

After learning about 2D nets to make 3D shapes, children will design and make their own packaging for a product. Our students will be In Music, we will be looking at composition and how we can record our own pieces to perform for others.

RSE

Year 3 will be thinking about the ways in which good sleep, exercise and personal hygiene can keep our bodies clean and healthy. Year 4 will how and why we need to make safe decisions to avoid hazards and injury.
