

Nursery

Suggested Activities – Thursday 4th July 2024

Activity	Where will I find the resources?
	<p>Follow Duggee's instructions for brushing your teeth. Show your adult your groovy dance moves to the music! https://www.youtube.com/watch?v=oStaJTHgHMU</p>
	<p>Talk like a robot! Put some objects together on the floor or on a table. These can be toys, items from the kitchen or from any room in the house. Try to choose things with different numbers of syllables – our children might call these “claps”. Next, ask your children to pick up the “tom – a – to” pausing between the syllables (it sounds like a robot). Can they put the syllables together to make the whole word? Repeat as many times as you like. You can even use this game through your day (eg would you like a “sand – wich” or a “nugg – ets” for lunch?)</p>
	<p>Our Book of the Week this week is our Fairytale story of Jack and the Beanstalk. It's one of our favourite stories to learn about in Nursery as we always love to act the story out with different voices. We would like you to share this with your family at home – click the link below to listen to the story. https://www.youtube.com/watch?v=-lGG5gYZ8c Imagine you had some magic beans and you planted them in your garden. What would you hope would grow – would it be a beanstalk like Jack's or something different? What would happen with your plant – would you climb to the top like Jack or something different? My story would be called Mrs Woods and the Giant Sunflower!</p> 
	<p>This is one of our favourite games at Nursery at the moment – it's great because we have been learning about things that live underwater. Follow the link to the game below and count some underwater friends. Try your best to subitise – this means that you don't need to count them one by one, you might be able to tell how many there are straight away. You can always check and see if you are right by counting them one by one. Remember good counting rules :</p> <ul style="list-style-type: none"> • Look at one object at a time – you can touch them if it helps you • Say one number at a time • The last number that you say if the number that you have! <p>https://www.topmarks.co.uk/learning-to-count/underwater-counting</p>
	<p>Keep yourselves active too – if it's a sunny and dry day, why not go for a walk in our local woods and look for signs of Summer. Can you hear the birds chirping? Lie in a clear space and look at the clouds in the sky – can you spot any pictures in the clouds?</p> <p>Here are some useful websites if the weather isn't so good: Cosmic Kids Yoga Joe Wicks Body Coach Go Noodle Jump Start Jonny</p>
